Mr. Lindquist then briefly addressed the audience regarding the impaired nursing program.

V. EDUCATION

A. Brown Mackie College- All campuses-Request for Curriculum Change (Brenda McAllister)

Staff appeared from Brown Mackie College. The school has requested a curriculum change from the Board's previous approval of a 70 hour curriculum as the Indiana Board for Proprietary Education requires 72 hours to award a degree. They have added a 2 hour introduction to medical terminology course to the curriculum. A motion was made and seconded to accept the curriculum change. McIntosh/Laux, 8-0-0, motion carries

B. FYI Only: Bethel College Diploma/RN to BSN Completion Program: Information attached regarding revised curriculum and brochure

C. University of Indianapolis-Request for curriculum change for BSN program and request for closure of ASN program (Cheryl Conces)

Staff appeared from University of Indianapolis. They are requesting closure of the ASN program. The last class graduates in May 2015 with no new admissions this fall. A motion was made and seconded to accept closure of the program as of May 2015. McIntosh/Laux, 8-0-0, motion carries. A separate request was made for a curriculum change which removes a computer class from the current core requirements. All components will be contained in other coursework. A motion was made and seconded to accept the curriculum change. McIntosh/Laux, 8-0-0, motion carries.

D. Marion Community School System-Tucker Vocational Program Center LPN Program- Monthly progress reports for May and June 2013 and Notice of Intent to close program (Susan Chastain)

Staff appeared from Tucker. The June 2013 report advised that the Marion Community System School Board made a decision that the nursing program will be terminated after the current class graduates in September 2013. A new development has ensued as they have had a third party approach them about taking over the program. The school board will hear the proposal in the next week. Therefore, a motion was made and seconded to table the closure issue until the July 2013 meeting. McIntosh/Laux, 8-0-0, motion carries. Discussion then turned to the current compliance of the nursing program. Ms. Smith, the Director of the program, has made progress in every area. Students have now entered the adult health section and have components in pharmacy, adult health 2 and PDR remaining. The current class remains on track to graduate 9/29/13. Staff reports that students are doing well in clinicals. Currently, the program rotates through 14 different clinical sites. Ms. McIntosh asked about feedback from clinical rotations and how the program currently obtains feedback/issues after clinicals take place. Ms. Smith indicated she has received positive feedback from sites. Marion Rehab Center has been added as a new clinical site. Ms. Laux asked how clinical site feedback was documented and Ms. Smith indicated she reports it to Ms. McCammon. Ms. Laux indicated that the program needs an evaluation form annually for clinical sites. The program should then compile the information and place it into their program evaluation plan. Ms. Laux asked about information the Board received regarding a documented clinical issue and indicated that all names should be redacted as this may be construed as a FERPA and HIPAA violation. Ms. McIntosh asked whether Dr. Folks had accepted a new position at in the Fort Wayne area. Mr. Edwards indicated that the report is correct. Mr. Edwards reported that Dr. Folks is leaving next week and Mr. Edwards is retiring a week from Friday. Tentatively, Brad Lindsay has been named as the new school superintendent. Ms. Cooper asked about advisory boards for their clinical sites and staff indicated that they have one shared advisory board for all health programs composed of members from each site. Ms. Cooper then asked about the last 4-5 months and clinical concerns and staff advised they have completed one documented roundtable discussion with sharing of clinical affiliates. Ms. Cooper indicated that this clinical affiliate group should assist with program evaluation and satisfaction surveys. Ms. Laux indicated evaluation plan is not currently being completed at clinical sites. The Board lauds the work that has been completed thus far regarding program improvement but believes additional measures should be in place prior to removal of conditional accreditation. A motion was made and seconded to continue the conditional accreditation status. Laux/Hall, 8-0-0, motion carries. A reminder was made to the program staff that their reports are due promptly on the 5th of each month and that the new school superintendent should come with them to their July 18 appearance.

E. Medtech College-Fort Wayne- Request for change in enrollment process and increase in TEAS score in RN program (Phyllis Bragg)

Staff appeared from Medtech re: this issue. The staff indicated that they have considered the advice of this Board re: enrollment procedures and reviewed with faculty a request to increase to their TEAS score to 58.7. Prior to this request, the TEAS score required for admission was 52. Ms. Laux asked why some Medtech campuses complete HESI testing and some do TEAS testing. Staff indicated that in Indiana the TEAS testing requirement has always been utilized. Ms. Cooper asked about testing and retakes and the interval between testing attempts. Staff indicated that there is no policy about the amount of time required between retakes. Ms. Cooper then asked if there is a limit to the number of retake attempts and staff indicated there is not. Ms. Laux indicated one of the problems with remediation is that students will figure out answers quickly, memorize them and then retake multiple times in a row. It then becomes a question as to whether the student truly has a knowledge base or whether they are just memorizing answers. Ms. Cooper recommended that Medtech needs to adopt a policy that requires at least 30 days between retakes and also needs to give consideration to limiting the number of retake attempts as well. Ms. Cooper asked if students scores are based on a single test or whether successful passing sections of different tests may be put together to achieve a passing score. Staff indicated that sections of multiple tests are put together. Obviously, this is a concern as the NCLEX is based on a cumulative result on a single exam and not

pieced together sections of multiple exams. The staff also indicated that Medtech does not require retesting in low scoring areas. However, the staff indicated for the last two years they have been tracking classes after poor performance in sections of the TEAS scores, and completing analysis of TEAS score vs. first time NCLEX pass rate. Staff indicated no patterns have been indicated in two years of tracking. Ms. Hall indicated that Medtech appears to be heading in the right direction but it is difficult to understand they are not seeing a pattern in the statistics they are tracking. Staff from Medtech agreed with the Board and indicated that increasing the TEAS score may not increase NCLEX results. Ms. Laux indicated they need to use TEAS the way it is supposed to be utilized and remediate with limitations and time between tests. Ms. Cooper indicated the TEAS has 4 categories but the documentation provided to the Board indicates that Medtech is only using criteria for 3: English, Math and Science only. Ms. Cooper asked whether a questionnaire which contains flags would still allow a prospective student into the system and staff indicated it is possible. Ms. Cooper indicated that the process needs to be fixed to include all 4 sections, to limit the number of retakes, to develop a policy that requires some amount of time between retakes, and that subjective admission criteria for prospective students is a concern. A motion was made and seconded to table their request for additional consideration by Medtech. They may return to the Board in August 2013. Burghduff/Hall, 8-0-0, motion carries

F. FYI Only- Ivy Tech Terre Haute receives NLNAC continuing approval as of March 2013

5. Scheree Robinson* LPN Exam CBC Hit/Positive Response (FULL BOARD)

Ms. Robinson appeared before the full Board regarding her application for examination. She indicated having a CNA license since 1997. She reported an issue in 2002, when she worked a shift and stayed over because the facility was short staffed. A resident was masturbating and another CNA leaving the facility reported it to Ms. Robinson. Ms. Robinson indicated that she informed the resident that he would need to go into his bedroom or bathroom rather than continue this behavior in the dining room. At the end of shift Ms. Robinson reports that she was called by staff nurse and suspended because she was accused of cursing at resident and she was ultimately fired. There was a hearing regarding the allegations and her CNA credentials where judge initially ruled in her favor, but ISDH appealed the ruling and won. At the time of this event she was 23 years old. When she was 18, she reports being arrested for arguing with a police officer after having an argument with her sister. In 2000, she reports being arrested for stealing property and marijuana use. She admits stealing and that she had a bag of marijuana in her pocket. She was given a diversion agreement for this issue. She admits to a battery charge in 2005 and reports that she got into an argument with acquaintance who allegedly stole from her. Ms. McIntosh asked why the Board should allow her to test and take care of patients. Ms. Robinson indicated she is receiving counseling at Gallahue Mental Health. The Board then had to review another termination in 2006 where Ms. Robinson was fired from a job after pushing a supervisor. According to Ms. Robinson, a mental health exam conducted at that time indicated "she was no longer a victim" and she admits that again it that she acted before thinking. A recommendation was made and seconded to allow her to test and after successful passage of the NCLEX, issue a probationary license, must have an MMPI-2 and results prior to licensure, quarterly employer reports from employer, may not lift for one year of active nursing practice. Burghduff/McIntosh, 5-1-0, motion carries (Laux against)

with a training record. He received the NCSBN comparison document as well. He looked at Army curriculum and NCSBN did review of 3 level of Air Force but did not review 5 and 7 levels of training. He is currently a 7 level in Air Force Specialty code and feels there are discrepancies. He currently lives in Alaska and works in an emergency room setting and is an EMT level 3. Mr. Burghduff indicated he contacted Ft. Sam Houston Texas re: allied health and spoke with personnel there at Allied Health Center. Mr. Burghduff talked to all four branches of the service to find out what schools they accredit and the only accredited LPN program is 68MW course at Fort Sam Houston. The other remaining services do not have an LPN equivalency. Although the Board appreciates Mr. Northam's service to our country, they cannot grant licensure at this time as the work completed was not at an LPN equivalent level. A. Appearances by Applicants by Licensure

1. Michael Thomas LPN Exam CBC Hit/Positive Response

Mr. Thomas appeared for his personal appearance regarding his application for licensure. He doesn't know how many times he was arrested but it was several in his twenties. His last arrested he had been for scraping, taking metal. This was in 2006. He did this to get money because he was out of work. He got the metal from an old abandoned building. He didn't realize how serious it was until he was arrested. He was placed on probation. He successfully completed the probation in 2008. Several arrests were driving without of license. He did have an arrest for possession of cocaine and marijuana. The drugs he had been for personal use. He has been clean since his last arrest. He went through a rehab program. He has changed his life. He has changed the people he is around, he went and received his education and joined the church. He currently works as a CNA. He is allowed to test. His license is to be issued on probation for 6 months active nursing practice with quarterly reports.

2. Kilee Tucker LPN Exam CBC Hit/Positive Response

Ms. Tucker appeared for her personal appearance regarding her application for licensure. She had a misdemeanor drug charge, doesn't know the year but believes it was in 2006. It took place in Lansing Michigan. She was placed on probation which she successfully completed. The drug she had was marijuana. It was for her own personal use. She was pulled over after the cops had ran the plates for the car she was driving. The car was someone's elses. In 2009, she was charged with larceny. She went to Wal-Mart with a friend and she didn't know the other girl was stealing. The Judge dismissed her charges because she was not the one stealing. In Michigan she had a DUI. She was dancing while she was going to school. She started drinking and smoking pot while she was dancing. She was dancing to put herself through college. She was leaving work. She had been drinking. She went to alcohol classes and mothers against drunk driving. Her nursing school knew all of this before she started school. She doesn't drink or drugs anymore. She is currently working at Zionsville Meadows and Caramel Care as a CNA. Both employers know about her criminal history. She finished last September. Medtech held her certificate of completion for quite awhile. There reason for this was because Medtech wanted them to go through a particular study program. She needs to have an ISNAP evaluation. She is allowed to test. Her license issued on probation for one year of active nursing practice with quarterly report.

3. Scheree Robinson LPN Exam CBC Hit/Positive Response

Ms. Robinson appeared for her personal appearance regarding her application for licensure. She got her CNA license in 1997. In 2002, she came in for a shift, she came in on the wrong weekend but they were short so she stayed because they were short. She was accused of cussing out a resident. She was told by the night shift that the patient was doing something inappropriate in the hall. She went to him and told him he can't do that in there he had to go to his bathroom or his room. He went to his room. Later she was told she was suspended while she was being investigation. 3 days later she was terminated. After that she received a letter from the health department regarding a complaint they had received. Her hearing was set for later that year. She just had her child and was having some problems. Due to these problems she wasn't able to make the hearing. She informed them of this. She was told it was ok and the ruling was in her favor. She went back to work. About 6 months later she was informed the health department requested an appeal. She went to the hearing and was told she couldn't speak. The result of the hearing was against her for abuse. When she was 18 she was arrested for arguing with a police officer. In 2000 she was arrested for stealing property and she had some majiunia in her pocket. The case was dismissed after she went through drug court. The drugs she had on her had been for personal use. In 2005, she had a battery charge. She was at work and she didn't see eye to eye with another supervisor. The supervisor had her fired. She had a physical altercation with the supervisor after she was fired. 2006, she let a girl come stay with her against her better judgment. The girl was stealing her stuff so she told the girl she had to go. The girl busted her windows. The girl called the police. The girl never showed up at court so it was dismissed.

She had a criminal mischief charge because her daughters father said she came in destroyed his girlfriend's car. They never showed up at court so it was dismissed. Matter needs to be rescheduled for full board.
